Rüya

Desktop Icons

How to customise your desktop with Rüya Icons

yenz / 2017

Your desktop will look more fun if you customise it with **Rüya Icons**

URLs

Application folders

Launch button

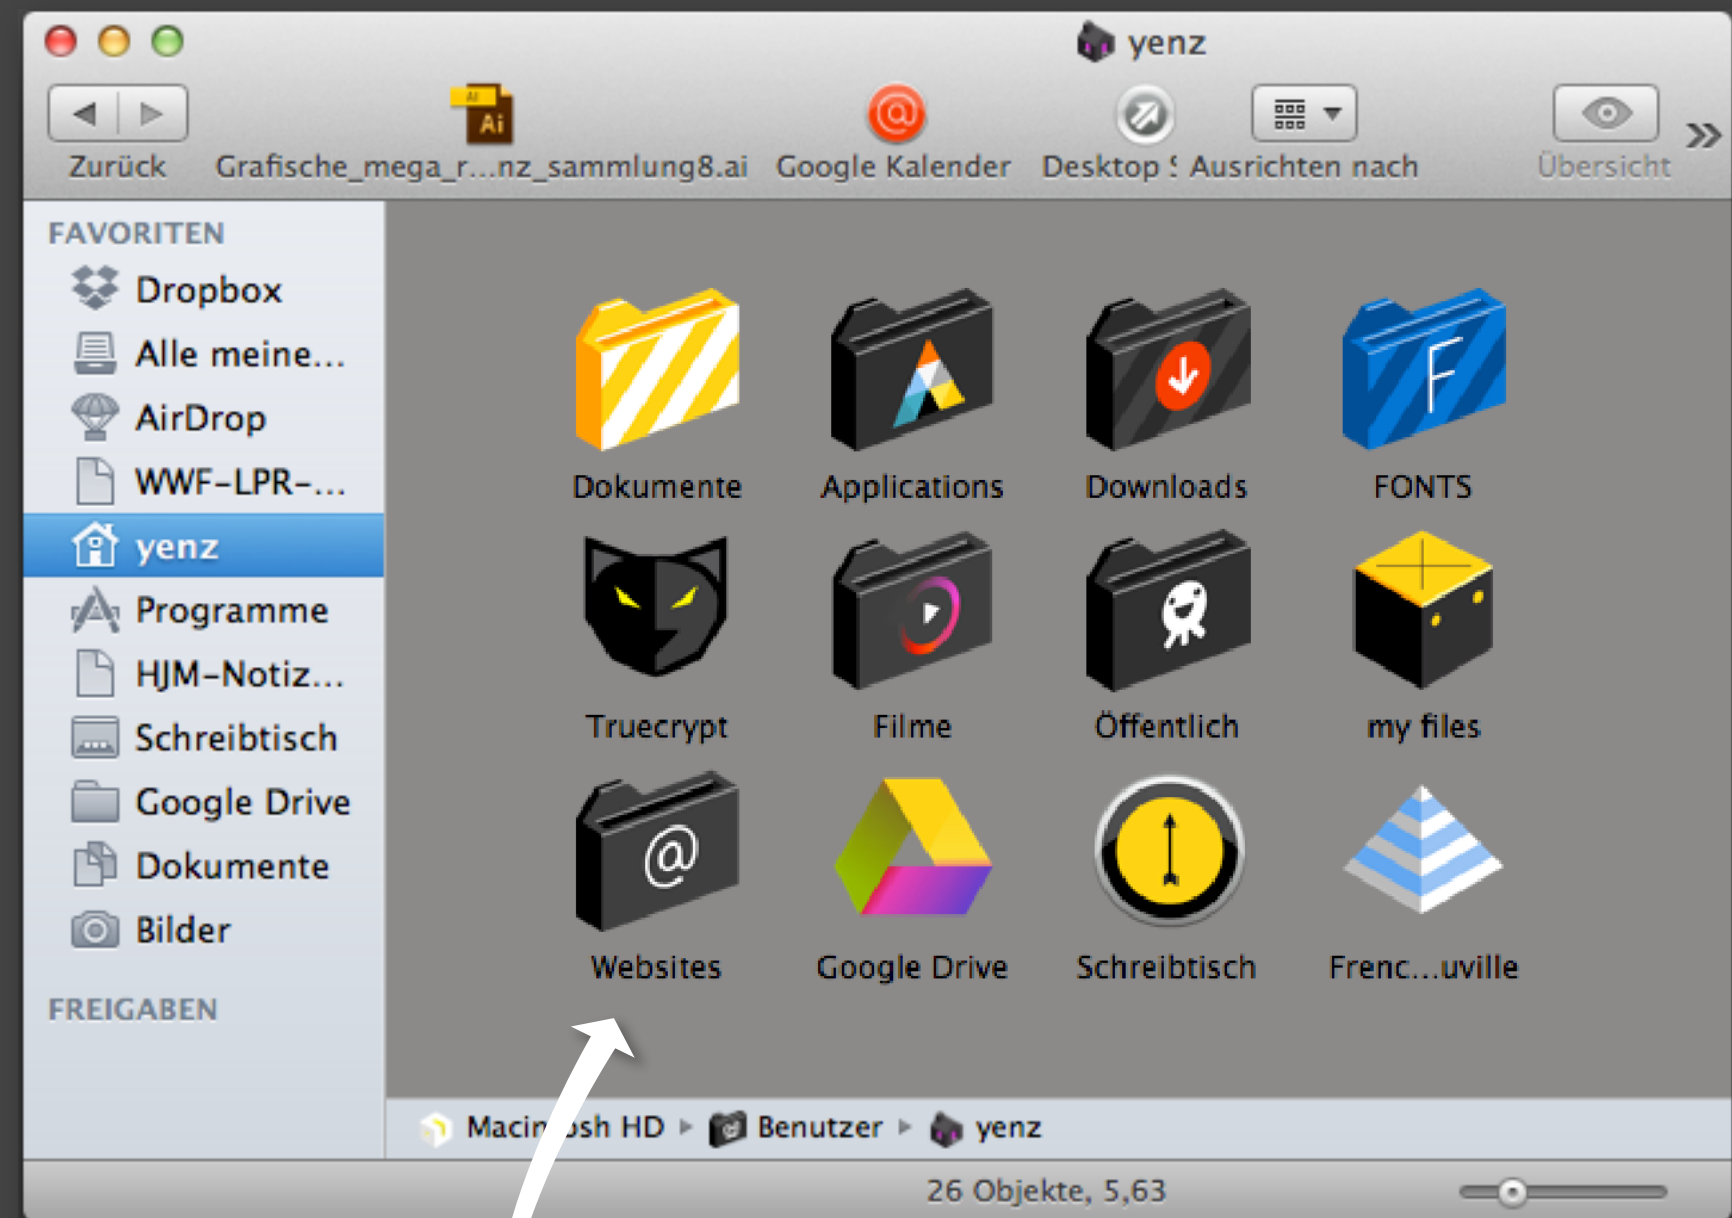

Quicktime

Work

Hard disc

Application icons

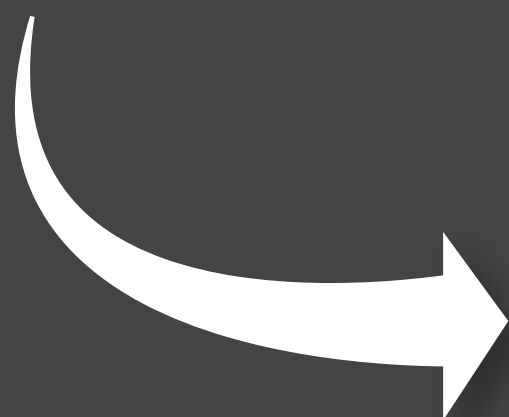

yenz / 2017

To customise application icons, use the software **LiteIcon**.
So you can change them all at once.

First download and install **LiteIcon**

LiteIcon

3.7.1 • 08 Nov 2016

Utility to quickly change/restore system icons.

<https://www.macupdate.com/app/mac/24764/liteicon>

The software is freeware and very easy to use

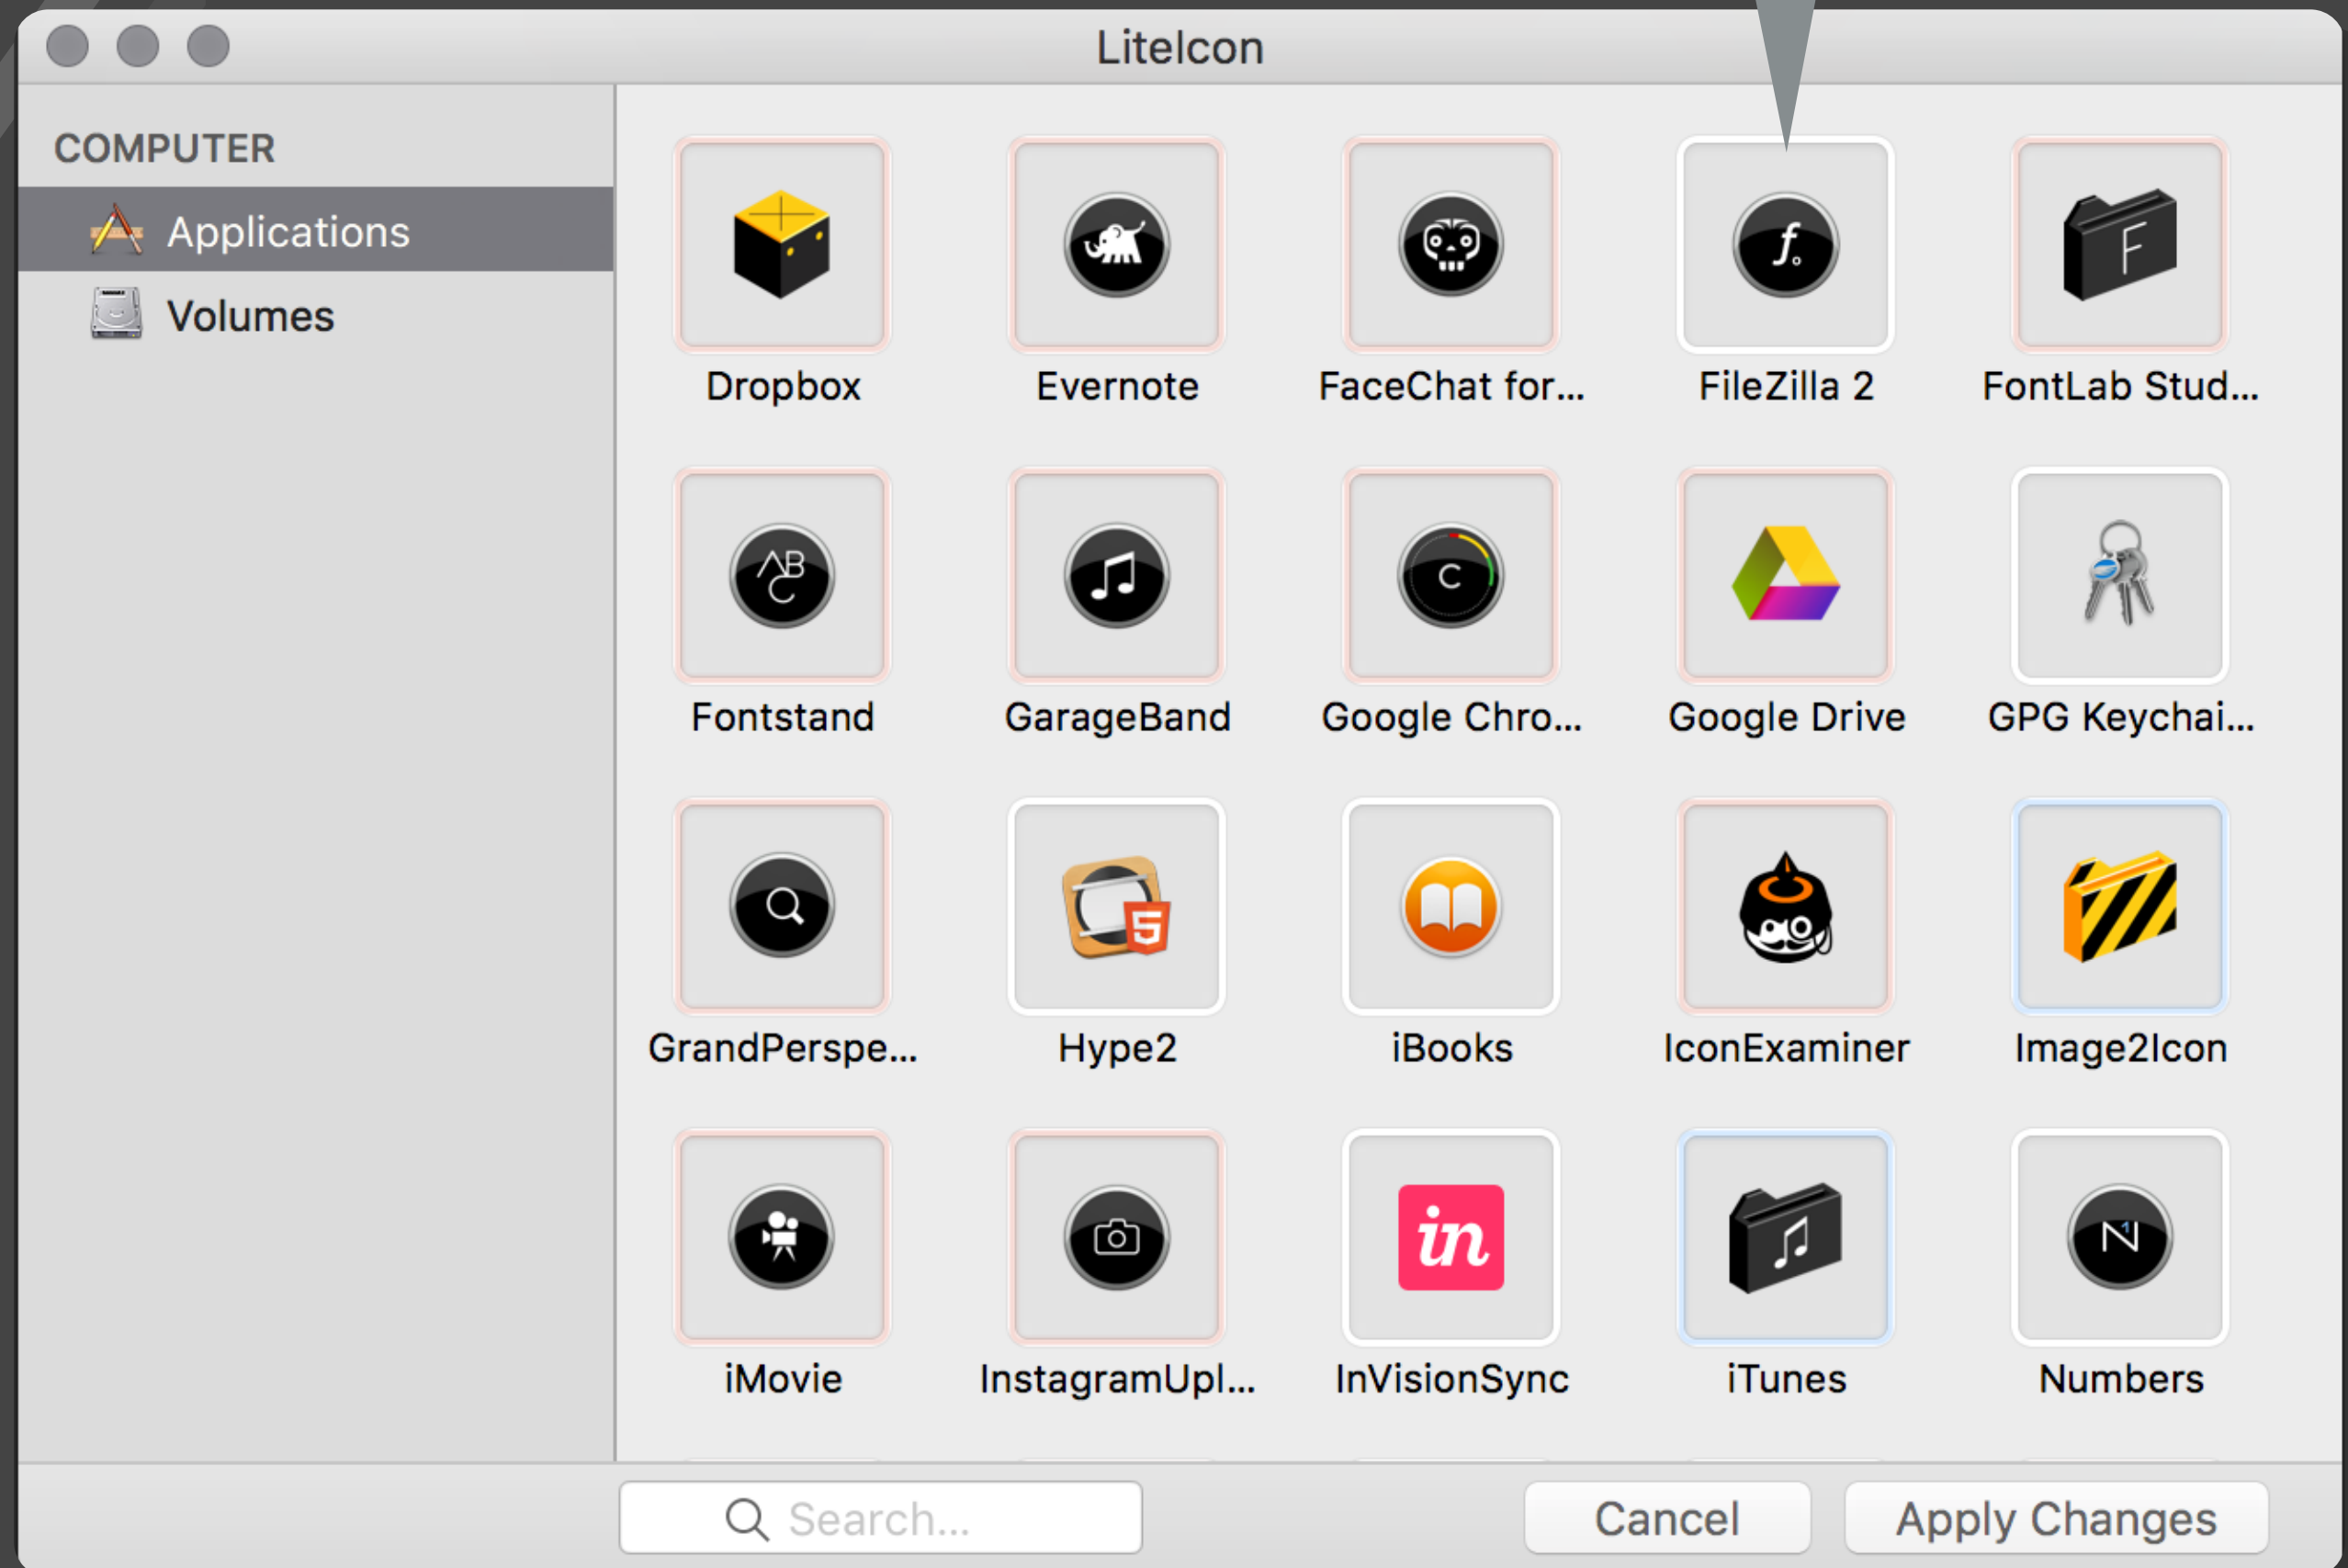

yenz / 2017

1

step

Just drag and drop Rüya Icons on the existing icons and press „**Apply Changes**”

yenz / 2017

2 step

You can also customise
your folders the traditional
way. No further software
is needed for this.

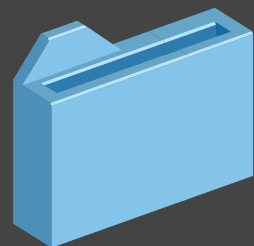

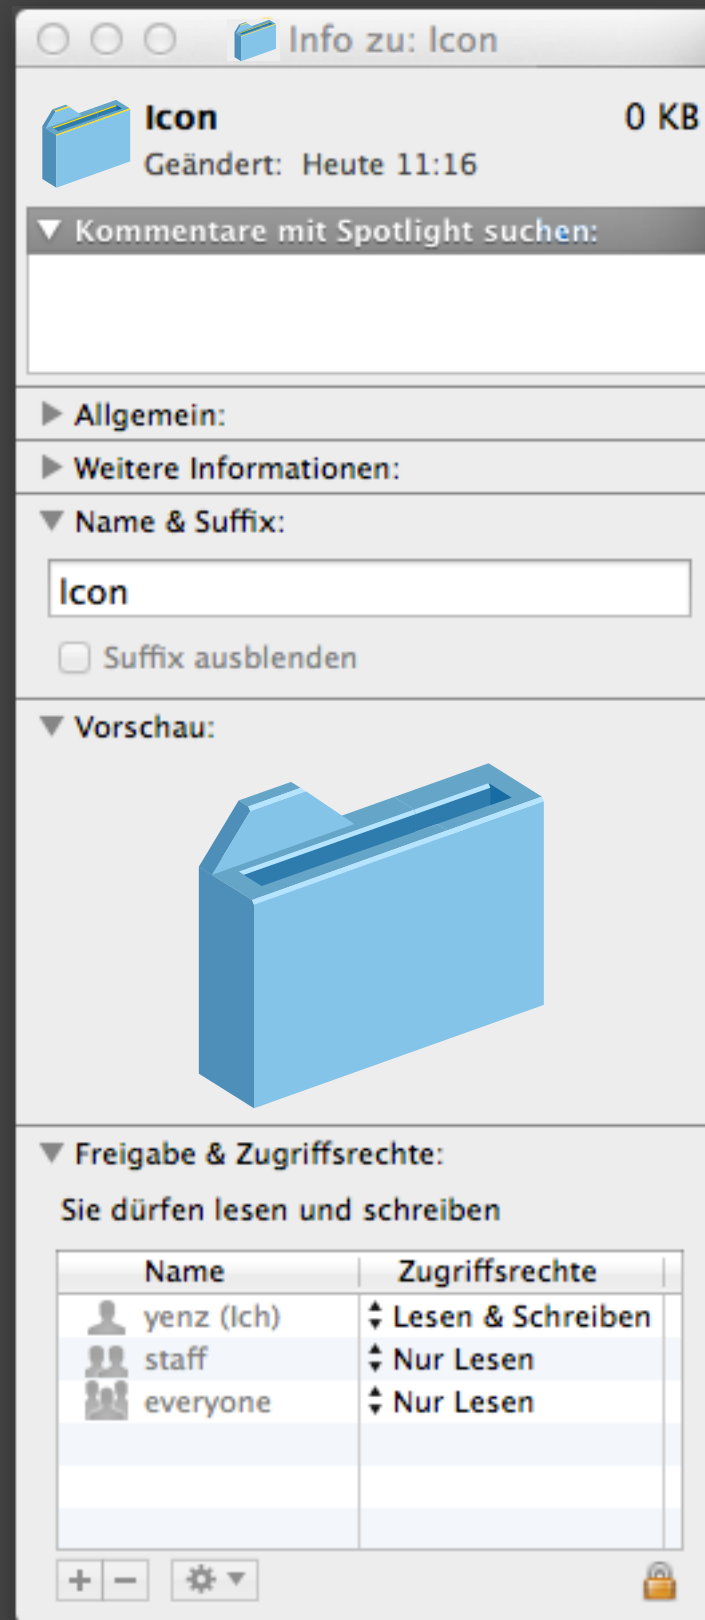

yenz / 2017

2 step

Open folder
information

Target folder

Open folder information
of the desired icon

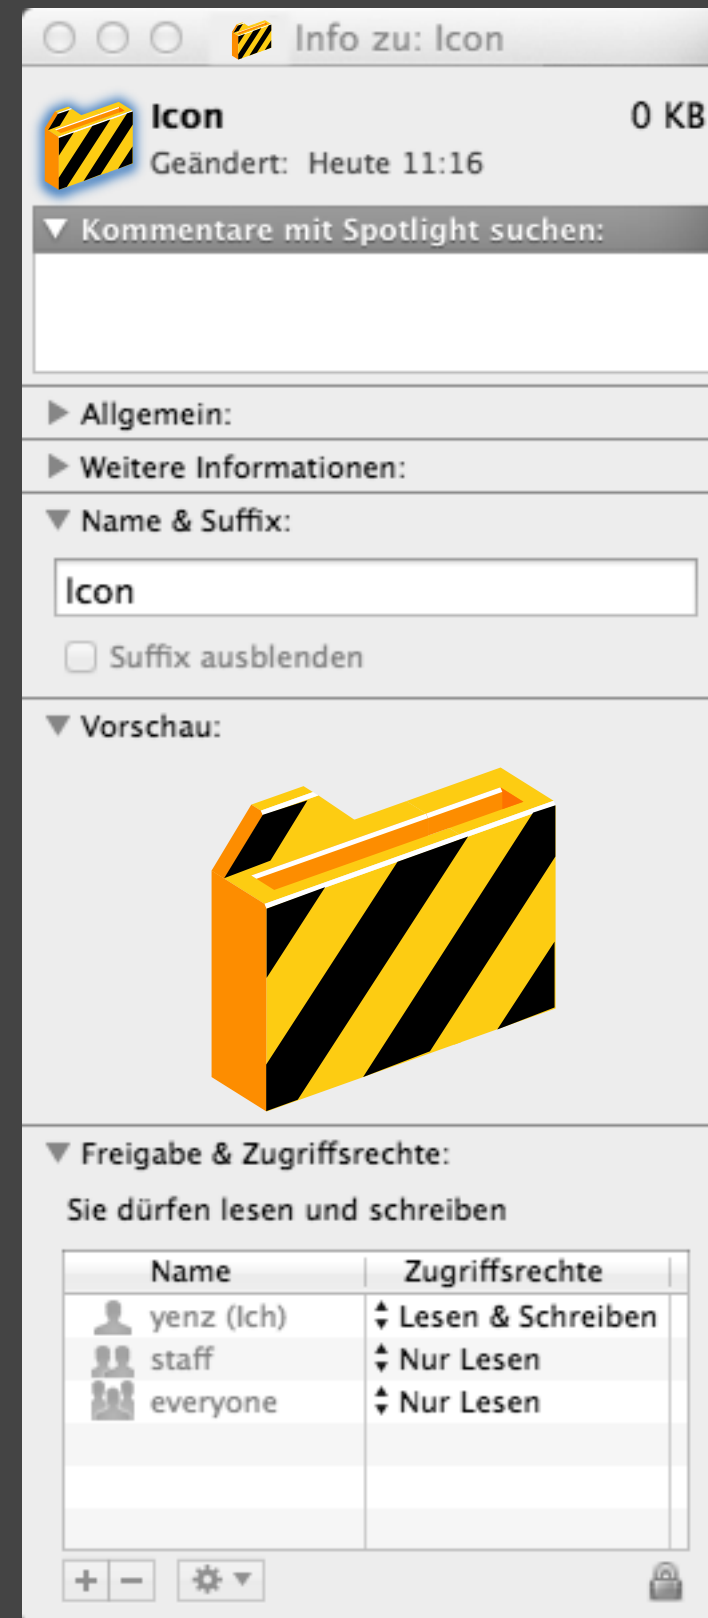

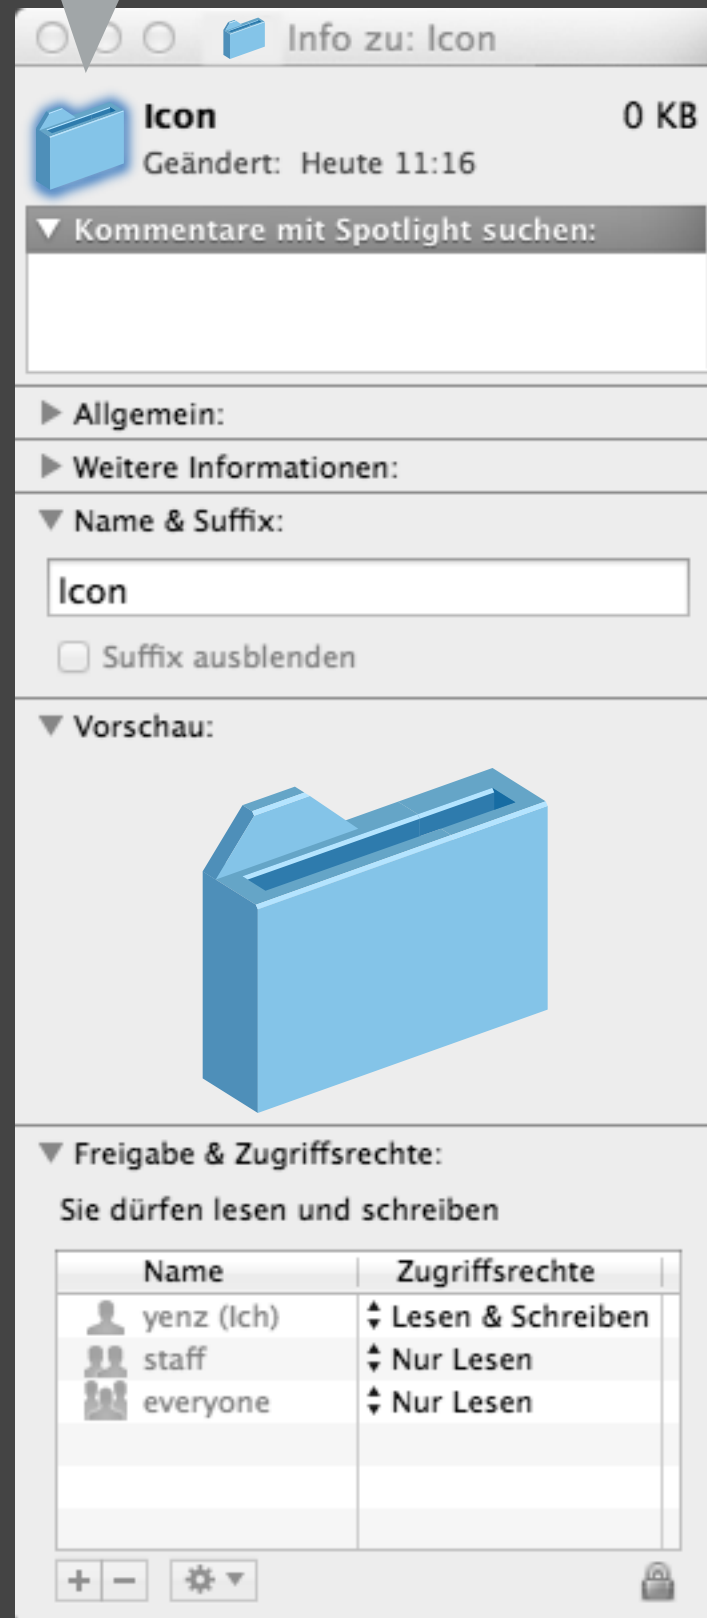

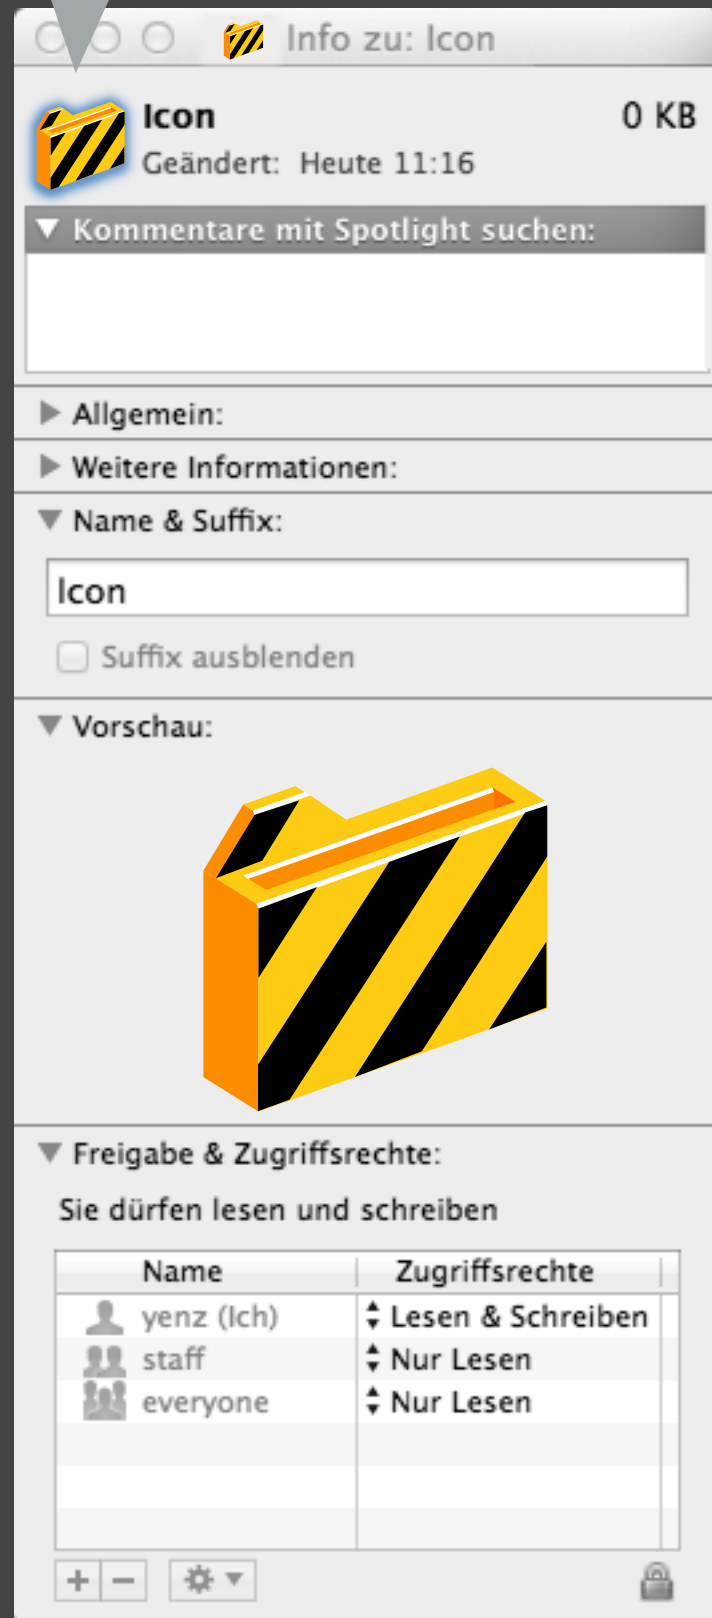

Icon

cmd copy

cmd paste

This is the
result
